

Month: \_\_\_\_\_

Fill in your numbers below. Print it, or type into the Excel and Google Sheets versions.

|                         |                     |                         |
|-------------------------|---------------------|-------------------------|
| How to read your budget | UNDER budget = good | OVER budget = watch out |
|-------------------------|---------------------|-------------------------|

| INCOME                   |          |          |
|--------------------------|----------|----------|
| Source                   | Expected | Received |
| Primary take-home pay    |          |          |
| Side income / second job |          |          |
| Other income             |          |          |

| FIXED EXPENSES                 |          |        |
|--------------------------------|----------|--------|
| Category                       | Budgeted | Actual |
| Rent / Mortgage                |          |        |
| Utilities (power, water, gas)  |          |        |
| Insurance (health, auto, home) |          |        |
| Phone / Internet               |          |        |
| Car payment                    |          |        |
| Subscriptions / memberships    |          |        |
| Childcare                      |          |        |
| Other fixed                    |          |        |

| VARIABLE EXPENSES   |          |        |
|---------------------|----------|--------|
| Category            | Budgeted | Actual |
| Groceries           |          |        |
| Gas / Transit       |          |        |
| Dining out          |          |        |
| Entertainment       |          |        |
| Shopping / clothing |          |        |
| Health / Medical    |          |        |
| Personal care       |          |        |
| Other variable      |          |        |

## SAVINGS &amp; GOALS

| Category              | Budgeted | Actual |
|-----------------------|----------|--------|
| Emergency fund        |          |        |
| Retirement / 401(k)   |          |        |
| Investments           |          |        |
| Specific savings goal |          |        |

## DEBT PAYOFF (beyond minimums)

| Category      | Budgeted | Actual |
|---------------|----------|--------|
| Credit cards  |          |        |
| Student loans |          |        |
| Other debt    |          |        |

## YOUR MONTH AT A GLANCE

| Total income | Total money out | Money left over |
|--------------|-----------------|-----------------|
|              |                 |                 |

**The 50 / 30 / 20 rule.** A simple way to check your money. Of your take-home pay, aim for about 50% on Needs (rent, food, utilities, insurance), 30% on Wants (dining out, entertainment, shopping), and 20% on Savings and paying off debt. The Excel and Google Sheets versions of this planner calculate these three numbers for you automatically and turn red when a bucket runs over.
